

Enhanced Conservative Mandate

CFG Model Portfolio

Reporting as of June 28, 2024

Portfolio Description

The **Enhanced Conservative Mandate** holds a portfolio of CFG CPC Share Classes (Pools) that seeks to generate both above average cash flow and reliable capital gains, appealing to investors who are making regular withdrawals from their portfolio. Cash flow is generated by a direct investment in yield-bearing assets (such as bonds, preferred shares and REITs) as well as exposure to balanced growth and capital preservation strategies such as covered calls, collars and option spreads, combined with moderate exposure to higher-risk, growth-oriented equity assets. One or more non-CPC funds may also be added, as required, to enhance exposure to more traditional fixed income assets.

Investment Objective

The objective of the **Enhanced Conservative Mandate** is to achieve better risk-adjusted returns than a passive, low-cost, diversified portfolio benchmark (The Real World Income Index). The Enhanced Conservative Mandate aims to achieve this objective by holding in client accounts a portfolio of tactically managed CFG CPC Share Classes and, as required, other funds weighted to meet the specific objectives of the Mandate. Croft Financial Group will rebalance back to current pool/fund weightings at least annually. In addition, rebalancing takes place within each Share Class (Pool) and CFG may make changes to pool or fund selection and weightings within the Mandate on a more frequent basis to manage market risk, take advantage of market opportunity, and manage cash positions. For further information, including a more detailed description of the investment objectives and strategy for each of the component Share Classes, please review our Relationship Disclosure Document and/or Share Class Fact Sheets, both available at www.croftgroup.com.
