Portfolio Description

The objective of the **GAINS FPX Growth Portfolio** is to provide Canadian investors with a simple, low-cost, investable ETF portfolio that effectively tracks the performance of its Financial Post FPX Growth benchmark*, which is a broad, globally-balanced Canadian dollar portfolio that has shown consistent capital gains biased investment appreciation since its 1997 inception. As such, the GAINS FPX Growth Portfolio is designed to be a higher-risk investment that combines selected global equity and income producing assets to enhance overall gains, and is best suited to risk-tolerant investors who are focused on building their investment assets and have a long time horizon before they may need to withdraw any funds.

To achieve this objective, the GAINS FPX Growth Portfolio holds broadly-traded, low-cost ETFs in fixed, strategic proportions, which are rebalanced up to monthly when cash is invested or divested, or at least annually on or before March 31st. Disclaimer

Portfolio management services provided by R N Croft Financial Group Inc. Performance is not guaranteed. Portfolio values change frequently, and past performance may not be repeated. Performance is based on actual returns of the constituent Funds and ETFs net of their embedded management expense ratios but are not adjusted for any transaction costs, early redemption charges or account and relationship manager fees. The inception date is chosen to reflect the inception of the most recently introduced constituent Funds and/or ETFs. The results presented are not those of an actual performance record, as no client accounts held the underlying securities in the specific proportions of this model Portfolio. The results are based on simulated or hypothetical performance results that have certain inherent limitations, including the fact that they are designed with the benefit of hindsight.
