Investment Strategy

Our strategy begins with a disciplined but flexible approach to pool management. Our main source for capital appreciation will be long global equity positions focused in Canada and the US, complimented with the tactical use of options and cash, and the strategic use of fixed income assets. Our disciplined strategy seeks opportunities across geographic regions, investment sectors and market capitalizations. The strategy includes both an analytical approach by analyzing the financials of companies, and technical approach in which market valuations guide the timing of trades.

Growth of \$1000
