

Enhanced Growth Mandate

CFG Model Portfolio

Reporting as of February 28, 2023

Portfolio Description

The **Enhanced Growth Mandate** holds a portfolio of CFG CPC Share Classes (Pools) that seeks to provide a growth-biased exposure to higher-risk assets – primarily common shares of publicly listed companies – along with balanced growth and capital preservation strategies such as covered calls, collars and option spreads, as well as more stable, yield-bearing assets, such as fixed income, preferred shares, and REITs.

Investment Objective

The objective of the **Enhanced Growth Mandate** is to achieve better risk-adjusted returns than a passive, low-cost, diversified portfolio benchmark (The Real World Growth Index). The Enhanced Growth Mandate aims to achieve this objective by holding in client accounts a portfolio of tactically managed CFG CPC Share Classes (Pools) weighted to meet the specific objectives of the Mandate. Croft Financial Group will rebalance back to current pool weightings at least annually. In addition, rebalancing takes place within each Share Class (Pool) and CFG may make changes to pool selection and weightings within the Mandate on a more frequent basis to manage market risk, take advantage of market opportunity, and manage cash positions. For further information, including a more detailed description of the investment objectives and strategy for each of the component Share Classes, please review our Relationship Disclosure Document and/or Share Class Fact Sheets, both available at www.croftgroup.com.
